

TRAVELTIDE PROJECT

Customer Insights, Segmentation
Reward Program Design

Project Goals

Analyze customer data to identify
key traveler segments

Develop a rewards program tailored
to customer preferences

Improve customer satisfaction, retention,
and spending

EXECUTIVE SUMMARY

Slide Goal: Show key findings at a glance.

This analysis was conducted using a dataset of 5,998 user sessions from TravelTide's data source, covering seven major customer segments — Business, Couple, Family, Frequent Traveler, Groups, Solo, and Other. The dataset includes behavioral metrics such as page clicks, booking lead time, hotel spend, conversion rate, and cancellation rate, visualized through TravelTide Customer insights Dashboard.

Key Insights:

- Frequent Travelers show the highest engagement, averaging 22 clicks per session and spending above €3,500. Groups record the highest cancellations (5,6%) and the shortest booking lead time (4days)
- Couples are the most stable and loyal, with lowest cancellations (1,6%) and strong conversions,
- Solo and Frequent Travelers have the highest average hotel spend, while Business travelers spend the

Persona Insights Summary

Frequent Travelers	Groups	Couples	Families
22	9	2.438	18
€ 564	2.073	2.438	2.824
Cancellations (%)	5,6%	1,6%	1,8%
Booking Lead (Days)	4	7	10

Goal:

Personalize the rewards system by analyzing booking and engagement behaviors to match perks with what truly motivates users

Result:

Identified three main KPIs – Conversion Rate, Cancellation Rate, and Hotel Spend –

Objective & KPI Focus

Conversion
Rate

Cancellation
Rate

Hotel Spend

Result:

Identified three main KPIs – Conversion Rate, Cancellation Rate, and Hotel Spend – as core drivers of loyalty and profitability. The analysis showed that optimizing these can improve both retention and revenue simultaneously

PERK PREFERENCES — TravelTide Project

Slide Goal: Understand which perks deliver the highest emotional and financial value to each customer group.

Result:

Solo & Frequent Travelers respond best to Exclusive Discounts and Free Checked Bags, showing a desire for practicality and cost-efficiency.

Couples & Families favor Free Meals and Late Checkouts proving that experience-based perks build stronger emotional loyalty.

BEHAVIOR & SPENDING PATTERNS

Slide Goal: Explore how engagement levels (clicks, sessions) relate to spending and booking stability.

- Solo
- Frequent Travelers

Frequent & Solo Travelers spend the most (€3,500+) but show medium booking consistency, indicating opportunity for loyalty-tier targeting

Goal 1

Frequent & Solo Travelers spend the most (€3,500+) but show medium booking consistency, indicating opportunity for loyalty-tier targeting.

Groups

Groups engage heavily but cancel the most (5.6%), revealing a need for flexible incentives to stabilize this segment.

Business Impact

Goal:

Demonstrate how personalization can transform TravelTide's user retention and revenue strategy.

Result:

Identified three main KPIs – Conversion generic offers, producing measurable gains in loyalty and engagement.

TravelTide now operates as a data-driven, predictive platform, turning user behavior into long-term business value.

⑥ RECOMMENDATIONS

Goal: Design actionable strategies to translate behavioral insights into long-term loyalty growth.

Result:

A Tiered Rewards Program (Bronze – Silver – Gold) will encourage progression and spending.

Targeted bonuses such as “No Cancellation Fees” and “Early Booking Discounts” are expected to reduce cancellations to below 4% and raise conversions by 3–5%.
